

For the use of Registered Veterinary Practitioner, Hospital or Laboratory

CHLORHEX

(Chlorhexidine Gluconate 4% w/v spray)

Composition:

Each ml contains
Chlorhexidine Gluconate Solution IP
Equivalent to Chlorhexidine Gluconate 4% w/v
Colour: Brilliant Blue FCF
Base Q.S.

Category: Chlorhexidine is a potent disinfectant that has antiseptic action against a wide range of microorganisms.

Description:

CHLORHEX spray contains Chlorhexidine gluconate 4% w/v.

Pharmacology:

Chlorhexidine gluconate is a bisbiguanide antimicrobial agent against Gram-positive and Gram-negative bacteria. It is both bactericidal and bacteriostatic depending on the concentration used. Growth inhibition is achieved by a direct effect on ATP-ase so interfering with the energy transport mechanisms. The bactericidal effect of chlorhexidine results from coagulation of the bacterial cell contents. Chlorhexidine Gluconate has activity against *Staphylococcus intermedius*.

Indications:

- CHLORHEX may be used to treat mild to severe bacterial dermatological conditions in dogs and cats.
- CHLORHEX may help in wound healing and general skin cleansing
- CHLORHEX may be used in site preparation before surgery, and also as surgical scrub for the hands and forearms prior to surgery or patient care.

Directions for Use:

Shake well before each use. Spray directly on affected areas twice or thrice a day or as directed by a veterinarian except eyes, nose and mouth. Let the animal be air dried.

While using as disinfectant or scrub, thoroughly rinse the area to be cleaned with water and apply the minimum amount of product necessary to cover the skin or wound area & wash gently. Rinse again thoroughly.

Warnings and Precautions:

Avoid spraying in eyes, nose and mouth. Intentional misuse by concentrating and inhaling the contents may be harmful.
For topical use only.
Keep out of reach of children.

VETERINARY
NOT FOR HUMAN USE
FOR ANIMAL TREATMENT ONLY

Presentation: 100 ml

STORAGE

Store in a cool and dry place and, protect from sunlight.
