

For the use of Registered Veterinary Practitioner, Hospital or Laboratory

STAPHBAN-F

(Fluticasone propionate 0.005% and Mupirocin 2.0% Ointment)

Composition:

Each tube of STAPHBAN-F contains
Fluticasone propionate IP 0.005% w/w
Mupirocin IP 2.0 % w/w
Water soluble base q.s.

Category: Antimicrobial and Anti-inflammatory

Description:

STAPHBAN-F ointment contains mupirocin and fluticasone propionate

Clinical Pharmacology:

Mupirocin

Mupirocin is a chemical entity produced by fermentation of the organism *Pseudomonas fluorescens*. Mupirocin inhibits bacterial protein synthesis by reversibly and specifically binding to bacterial isoleucyl transfer-RNA synthetase. Due to this mode of action, mupirocin shows no cross resistance with chloramphenicol, erythromycin, gentamicin, lincomycin, neomycin, novobiocin, penicillin, streptomycin, and tetracycline. Mupirocin is an antimicrobial agent that inhibits the growth of gram-positive and gram-negative bacteria.

Fluticasone propionate

Fluticasone is synthetic fluorinated corticosteroid for topical dermatologic use, as anti-inflammatory and antipruritic agent.

Indications:

STAPHBAN-F ointment is indicated in various conditions such as dermatitis, atopic dermatitis, flea bite allergy, pruritus, eczema and psoriasis as a topical antimicrobial and anti-inflammatory.

Dosage and Administration:

STAPHBAN-F ointment should be applied to the affected area twice a day.

Apply a sufficient amount of ointment to completely cover the affected area.

Contraindications:

Contraindicated in animals with a history of sensitivity reactions to any of its components.

Warnings and Precautions:

STAPHBAN-F ointment is not for ophthalmic use. Safety of use in pregnant or breeding animals has not been determined.

Adverse reactions:

No adverse reactions have been reported with this product. In case of skin reaction, treatment should be discontinued and appropriate therapy should be initiated.

Overdosage: An overdose of STAPHBAN-F ointment is unlikely to occur. If an overdose is suspected, seek emergency veterinary treatment.

Presentation: 10 g Tube

Storage: Store below 25°C. Do not freeze. Keep out of reach of children

Last update: November 2021.
