

For the use of Registered Veterinary Practitioner, Hospital or Laboratory

L-carnitine, Taurine, Ubidecarenone, Folic acid, Vitamin E with Multimineral Tablets

STRONGBEAT **ADVANCE**

HEART SUPPORT FORMULA

Composition:

Each film coated tablet contains:

L-carnitine	250 mg
Taurine USP	250 mg
Folic acid	0.9 mg
N,N-Dimethyl glycine HCl	50mg
Ubidecarenone USP (CoQ10) USP	10 mg
Vitamin E	30mg
As Alpha Tocopheryl Acetate Concentrate powder B.P 50%)	
Magnesium (as magnesium oxide I.P)	0.5 mg
Potassium (as potassium citrate I.P)	0.1 mg
Selenium (as sodium selenite Pentahydrate B.P))	0.007
Excipients	mg q.s.
Colour :Feric Oxide (Red) U.S.P – N.F. & Titanium Dioxide I.P	

DESCRIPTION

STRONGBEAT ADVANCE is a heart support formula which supports cardiovascular health and function in dogs and cats.

PHARMACOLOGY

Taurine supports regular heartbeat, minimizes the loss of potassium, supports the proper use of electrolytes, and it provides antioxidant support the immune system.

L-Carnitine supports the use of fat for energy and oxygen utilization. It supports fat metabolism, which helps balance cholesterol and triglycerides levels, as well as supporting the heart's energy levels.

N, N-Dimethylglycine (DMG) supports circulation and acts as an antioxidant.

Vitamin E supports circulation and immune system health, as well as heart muscle strength. Vitamin E helps support tissue repair, normal blood clotting, blood pressure, strengthens capillary walls, and it is a powerful antioxidant.

Ubidecarenone (Coenzyme Q10) supports oxygenation of the heart tissue and helps protect against oxidation. Ubidecarenone (Coenzyme Q10) helps strengthen the heart muscle as a lipid soluble antioxidant Folate is required for the formation of red blood cells and helps support capillary blood flow.

Magnesium supports proper functioning of the cardiac muscle. It helps to maintain the integrity of blood vessel walls, normal blood viscosity (thickness), and a strong normal heartbeat. Magnesium helps regulate electrical activity for the heart.

Potassium is needed for electrolyte balance, which is important for proper heart rhythm and blood pressure.

Selenium provides antioxidant support within the heart muscle. It is a component of glutathione peroxidase and works with vitamin E to maintain a healthy heart.

INDICATIONS

Dogs and cats with pre-existing sub-optimal cardiovascular functions

Breeds of dogs and cats that are predisposed to cardiovascular stress

Support of geriatric patients

STRONGBEAT supports heart muscles, reduce oxidative stress, and support cardiovascular functions. It also contains ingredients to support circulation and better utilization of oxygen.

DIRECTIONS FOR USE

Cats: 1/2 Tablet daily

Dogs: 1/2 Tablet/10 kg body weight daily

Cats: 1/2 Tablet daily

CAUTION: Safe use in pregnant animals or animals intended for breeding has not been proven. For use in dogs and cats only.

PRESENTATION: Bottle of 30 Tablets

STORAGE: Store in a cool, dry place.

Protect from Light & Moisture.

Keep out of the reach of children and animals.

For veterinary use only. Not for human use.

For use in dogs & cats only

Marketed by and Manufactured Under the Technical guidance of
